Vol. 58

Index/Contents

2008

Mahmoud Abu-Allaban
The Hashemite University

Sara D. Adar
University of Washington

Atin Adhikari
University of Cincinnati

B.J. Alappat
I.I.T. Delhi

D. Grant Allen
University of Toronto

George A. Allen
Northeast States for Coordinated Air Research Management

Ryan Allen
Saiman Fraser University

Manuel Alonso
National Center for Metallurgical Research (Spain)

Kadir Alp
Istanbul Technical University

Erdogan Alper
Hacettepe University Chemical Engineering

Rashed Al-Sa'ed
Birzeit University

Célia Alves
University of Aveiro Research Institute

Vassilis Amiridis
National Observatory of Athens

Bruce Anderson
National Aeronautics and Space Administration

Larry G. Anderson
University of Colorado at Denver

Maria de Fatima Andrade
University of Sao Paulo

Michel Andre
Institut National de Recherche sur les Transports et Leur Sécurité

Yves Andres
École des mines de Nantes

Randy Angle
Alberta Department of the Environment

James M. Antonini
National Institute for Occupational Safety and Health

Wyat Appel
U.S. Environmental Protection Agency

Michael Apte
University of California, Berkeley

Athanassios A. Argiriou
University of Patras

Alfredo J. Armendariz
Southern Methodist University

Jeff Arnold
U.S. Environmental Protection Agency

Antti Arola
Finnish Meteorological Institute

Luis Arroja
University Aveiro

Suwimol Asavapisit
King Mongkut's University of Technology Thonburi

Lowell L. Ashbaugh
University of California, Davis

Claire C. Austin
National Research Council of Canada

Lara P. Autry
U.S. Environmental Protection Agency

Ed Avol
University of Southern California

Tina Bahadori
American Chemistry Council

Chad R. Bailey
U.S. Environmental Protection Agency

Angela K. Baker
Max Planck Institute for Chemistry

Daniel C. Baker
Shell Global Solutions

Rajasekhar Balasubramanian
National University of Singapore

Michael G. Barna
Colorado State University

Karen Bartlett
University of British Columbia

Karsten Baumann
ARA, Inc.

Fabrice Beline
Cemagref

John Bell
SAFRISK, LC

Michelle L. Bell
Yale University

Vernon A. Benignus
U.S. Environmental Protection Agency

William G. Benjey
National Oceanic and Atmospheric Administration (on assignment to U.S. Environmental Protection Agency)

Laurel Berman
University of Illinois at Chicago, Agency for Toxic Substances and Disease Registry

Bridget N. Bero
Northern Arizona University

V.N. Bhat
Pace University

Prakash V. Bhave
National Oceanic and Atmospheric Administration

Gary A. Bishop
University of Denver

Laura Blair
Government of Alberta

Don L. Blumenthal
Sonoma Technology, Inc.

Jean E. Bogner
Landfills +, Inc.

Chandradeo Bokhoree
University of Technology, Mauritius

Gillian Bond
New Mexico State University

James W. Boylan
Georgia Department of Natural Resources

Patricia F. Brewer
North Carolina Department of Environment and Natural Resources, VISTAS Regional Planning Organization

Christie-Joy Brodrick
James Madison University

James S. Brown
U.S. Environmental Protection Agency

Steven G. Brown
Sonoma Technology, Inc.

David Brzezinski
U.S. Environmental Protection Agency

Alfons Buekens
Free University of Brussels

Elena M. Buller
University of Texas at Austin

Janet Burke
U.S. Environmental Protection Agency

James B. Burkholder
National Oceanic and Atmospheric Administration

William R. Burrows
Meteorological Research Branch/ Meteorological Service of Canada

John Cabaniss
Association of International Automobile Manufacturers

Alexandre R. Cabral
Université de Sherbrooke

David Campbell
Desert Research Institute

Alex J. Cannon
Meteorological Service of Canada–Pacific & Yukon Region

Mark Carlock
California Air Resources Board

Ray E. Carter
University of Kansas

William P. Carter
University of California, Riverside

Thomas B. Cascio
Florida Department of Environmental Protection

Kenneth D. Casey
Texas Agricultural Experiment Station

Fahe Chai
Chinese Research Academy of Environmental Sciences

Archontoula (Douli) Chaloulakou
National Technological University of Athens

Marcelo Chamecki
Johns Hopkins University

Alan C. Chan
Sonoma Technology, Inc.

Wanyu Rengie Chan
Exponent, Inc.

Sekhar Chandra
National University of Singapore

Chang-Tang Chang
National I-Lan University

Chi-Bo Chang
Texas Tech University

Moo Been Chang
National Central University

Ni-Bin Chang
University of Central Florida

Oliver Chang
California Air Resources Board

How-Ran Chao
National Pingtung University of Science and Technology

Antony Chen
Desert Research Institute

Jianjun Chen
University of California, Davis

Jing Chen
Texas A&M University

Shui-Jen Chen
National Pingtung University of Science and Technology

Tzu Ming Chen
Industrial Technology Research Institute

Wenhao Chen
Carrier Corporation

Yung-Sung Cheng
International Rice Research Institute

Pen-Chi Chiang
National Taiwan University

Yu-Chun Chiang
Yuan Ze University

Chart Chiemchaisri
Kasetsart University Thailand

Ing-Jia Chiou
Nanya Institute of Technology

Jae-Won Choi
K-Water

David Chou
California Air Resources Board

Ming-Shean Chou
National Sun Yat-Sen University

Paul Chu
Electric Power Research Institute

Kuenja Chung
U.S. Environmental Protection Agency

Isabelle Coll
Lisa, University Paris 12

Daniel P. Connell
CONSOL Energy, Inc.

David A. Conrad
Stranded Data Management Systems

Scott A. Copeland
U.S. Department of Agriculture Forest Service/Colorado State University

Jean-Marie Cormier
University of Orleans

Roberto M. Corvalan
University of Chile

Richard Countess
Countess Environmental

Chatten Cowherd
Midwest Research Institute

Stephen J. Cowie
Joyce Engineering, Inc.

Huub H. Cox
City of Los Angeles

Bart Croes
California Air Resources Board

Angela Cullen
U.S. Environmental Protection Agency

Mary Ann Curran
U.S. Environmental Protection Agency

Josef Cyrys
GSF National Research Center for Environmental Health

Philippe Dagaut
Centre National de la Recherche Scientifique

Aaron C. Davenport
Homeland Security Affairs

Wayne T. Davis
University of Tennessee

Jan Degrève
University of Leuven

Mark Delucchi
University of California, Davis

Walter Den
Tunghai University

Tom Denmead
Australian Commonwealth Scientific and Research Organization

Richard G. Derwent
RD Scientific

David Diaz-Sanchez
U.S. Environmental Protection Agency

Jack E. Dibb
University of New Hampshire

Ron DiMelfi
Chapman University

Gabor Doka
Doka Life-Cycle Assessments

Leon J. Dolislager
California Air Resources Board

Prakash Doraiswamy
University at Albany–State University of New York

Ke Du
University of Illinois at Urbana–Champaign

Brajesh Dubey
University of Auckland

Thomas D. Durbin
University of California, Riverside

Ertan Durmusoglu
University of Kocaeli (Turkey)

Delbert J. Eatough
Brigham Young University

Sylvia A. Edgerton
Pacific Northwest National Laboratory

Tuncer B. Edil
University of Wisconsin

Rufus D. Edwards
University of California, Irvine

Bruce A. Egan
Egan Environmental Inc.

Bart M. Eklund
URS Corporation

E.P. Eleftheriou
University of Thessaloniki (Greece)

Mutasem El-Fadel
American University of Beirut

Jill A. Engel-Cox
Battelle Memorial Institute

Andrew Ernest
Western Kentucky University

Ferruh Erturk
Yildiz Technical University

Vic Etyemezian
Desert Research Institute

HeeSoo Eun
National Institute for Agro-Environmental Sciences

Greg J. Evans
University of Toronto

Stefan R. Falke
Washington University

Tiago Farias
Instituto Superior Tecnico

Alex Farrell
University of California, Berkeley

Oladiran Fasina
Auburn University

Jerome D. Fast
Pacific Northwest National Laboratory

Tony Fernandez
U.S. Environmental Protection Agency

Jose D. Figueroa
U.S. Department of Energy National Energy Technology Laboratory

Philip M. Fine
South Coast Air Quality Management District

Mark W. Fitch
Missouri University of Science and Technology

Dennis R. Fitz
University of California, Riverside

Peter G. Flachsbart
University of Hawaii at Manoa

Robert G. Flocchini
University of California

Karen Foarde
Research Triangle Institute

Jacques Fontan
Laboritoire d'Aerologie

Edmilson Dias de Freitas
Universidade de São Paulo

Bradley K. Fritz
U.S. Department of Agriculture–Agricultural Research Service Areawide Pest Management Research Unit

Scott Fruin
University of Southern California

Dennis Fudge
BC Environment

Eric M. Fujita
Desert Research Institute

David Gabriel
Universitat Autonoma de Barcelona

Kevin C. Galbreath
University of North Dakota

Oscar Garcia-Algar
Hospital del Mar

Kristi A. Gebhart
National Park Service

Andras Gelencser
University of Pannonia (University of Veszprém)

Michael D. Geller
Los Angeles County Sanitation Districts

John German
American Honda Motor

Reed Gibby
Nevada Department of Transportation

John Gilkeson
Minnesota Pollution Control Agency

Wendy S. Goliff
Desert Research Institute

Cesar Gomez-Hermosillo
Universidad de Guadalajara

Dave I. Gourley
Pacific Vehicle Testing Technology, Ltd.

Thomas J. Grahame
U.S. Department of Energy

John L. Gras
Commonwealth Scientific and Industrial Research Organisation

Russell R. Graze
Caterpillar

Mark C. Green
Desert Research Institute

Rajiv Gupta
Birla Institute of Technology and Science

Mae S. Gustin
University of Nevada–Reno

Hilary R. Hafner
Sonoma Technology, Inc.

Lawrence J. Hagen
U.S. Department of Agriculture–Agricultural Research Service

Robert E. Hall
U.S. Environmental Protection Agency

D. Alan Hansen
Electric Power Research Institute

Lucija Hanzic
University of Maribor

Jiming Hao
Tsinghua University

Ken Harrison
University of South Carolina

Melissa A. Hart
University of Hong Kong

Kara Huff Hartz
Southern Illinois University

Floyd Hasselriis
Environmental Technology Group, Ltd.

David J. Hassett
University of North Dakota

Ronald M. Heck
PTD

David W. Heinold
ENSR Corporation

Brian T. Heninger
U.S. Environmental Protection Agency

Susanne V. Hering
Aerosol Dynamics, Inc.

Patrick A. Hettiaratchi
University of Calgary

George Hidy
Envair/Aerochem

Matthew J. Higgins
Bucknell University

Masahiko Hirao
University of Tokyo

James Hirtz
U.S. Environmental Protection Agency

Steven Hoff
Iowa State University

William K. Hogland
University of Kalmar

Britt A. Holmen
The University of Vermont

Thomas M. Holsen
Clarkson University

Philip K. Hopke
Clarkson University

Helmuth Horvath
University of Vienna

Cynthia Howard-Reed
National Institute of Standards and Technology–Building and Fire Research Laboratory

Kuo-Lin Huang
National PingTung University of Science and Tec

Nick Hutchings
University of Aarhus (Danmarks Jordbrugs Forskning)

Nick Hutson
U.S. Environmental Protection Agency

Hege Indresand
University of California, Davis

Heribert Insam
University of Innsbruc

Vlad Isakov
Office of Research and Development, National Exposure Research Laboratory, U.S. Environmental Protection Agency

Kaz Ito
New York University

Larry D. Jacobson
University of Minnesota

Mark Z. Jacobson
Stanford University

Russell R. Jalbert
Malcolm Pirnie, Inc.

Girija Jayaraman
Indian Institute of Technology

L. Jelemensky
Slovak Tech Univ Bratislava

Jeff Jeremiason
Gustavus Aldolphus College

Michael Jerrett
University of California, Berkeley

Jeff Jetter
Honda R&D Americas Inc.

Yaomin Jin
Purdue University

Wanida Jinsart
Chulalongkorn University

Jason Johnson
University of Minnesota

Martin Johnson
California Air Resources Board

Timothy V. Johnson
Corning Environmental Technologies

Thomas Jungbluth
University of Hohenheim

Glikeria Kakali
National Technical University of Athens

M.A. Kalam
University of Malaya

Shinji Kambara
Gifu University

Naoki Kaneyasu
National Institute of Advanced Industrial Science and Technology

Prakash Karamchandani
Atmosphere & Environmental Research Inc.

James Katzer
National Academy of Engineering

John P. Kay
Energy & Environmental Research Center

Tim C. Keener
University of Cincinnati

Christian Kennes
University La Coruna

Donna M. Kenski
Lake Michigan Air Directors Consortium

Imad Khalek
Southwest Research Institute

Andrey Khlystov
Duke University

Byeong-Uk Kim
Department of Natural Resources/Environmental Protection Division

Byung J. Kim
U.S. Army Engineer Research & Development Center

Kyung W. Kim
Gyeongju University

Patrick L. Kinney
Columbia University

Mark Kinter
Elgin Sweeper Company

Ignacy Kitowski
University Maria-Curie Sklodowska

Kim Karen Kleeberg
GMX

Michael J. Kleeman
University of California, Davis

Greg Kleinheinz
University of Wisconsin–Oshkosh

Annette Koehler
Swiss Federal Institute of Technology Zurich

Allan Kolker
U.S. Geological Survey

Yasushi Kondo
Waseda University

Soo Koolee
Seoul National University of Technology

Darko Koracin
Desert Research Institute

Paul J. Koval
Ohio Environmental Protection Agency

Michihisa Koyama
Tohoku University

Thomas H. Kuehn
University of Minnesota

Elmira Kujundzic
University of Colorado at Boulder

Jaakko S. Kukkonen
Finnish Meteorological Institute

Umesh Kulshrestha
Indian Institute of Chemical Technology

Sunil Kumar
National Environmental Engineering Research Institute

Wen-Chien Kuo
National Pingtung University of Science and Technology

Bhaskar Kura
University of New Orleans

Ralf Kurtenbach
Bergische Universität Wuppertal

Soonbark Kwon
Track and Civil Engineering Research Department

Chao-Ming Lai
National Taiwan University

Sheldon Landsberger
University of Texas at Austin

Dennis D. Lane
University of Kansas

Thomas Lanni
New York State Department of Environmental Conservation

Valentin Lanz
Empa–Materials Science & Technology

Chris Laroo
U.S. Environmental Protection Agency

Alexis K. Lau
Hong Kong University of Science & Technology

Anthony K. Lau
University of British Columbia

Arthur Lau
The Hong Kong University of Science and Technology

Phil Lawless
Research Triangle Institute

Michael Lazaro
Argonne National Laboratory

Andy Lee
County Sanitation Districts of Los Angeles County

Ching-Hwa Lee
Da-Yeh University

How Ming Lee
Institute of Nuclear Energy Research

Joo-Youp Lee
University of Cincinnati

Wen-Jhy Lee
National Cheng Kung University

Allen S. Lefohn
A.S.L. & Associates

Allan H. Legge
Biosphere Solutions

Christopher M. Lehmann
Illinois State Water Survey

David Leith
University of North Carolina at Chapel Hill

Gregory Leonardos
Bentley College

Gregory Leptoukh
National Aeronautics and Space Administration

Douglas M. LeVan
Vanderbilt University

Yiannis A. Levendis
Northeastern University

Jonathan I. Levy
Harvard School of Public Health

Sam Lewis
Oak Ridge National Laboratory

Hebi Li
CH2M HILL

Jianbing Li
University of Northern British Columbia

Qianfeng Li
North Carolina State University

Lorenzo Liberti
Polytechnic University

Jerry Lin
Lamar University

Jim J. Lin
National Kaohsiung First University Yanchaun

Jyh-Ping Lin
Lan-Yang Institute of Technology

Kae-Long Lin
National I-Lan University

Tsair-Fuh Lin
National Cheng-Kung University

William Linak
U.S. Environmental Protection Agency

Terttaliisa M. Lind
Paul Scherrer Institut

Fred Lipfert
Environmental Consultant

Lei Liu
Dalhousie University

Shili Liu
University of Connecticut

Jie-Chung Lou
National Sun Yat-Sen University

Glykeria I. Loupa
Democritus University Thrace

Jim Love
University of Calgary

Douglas Lowenthal
Desert Research Institute

Chungsying Lu
National Chung Hsing University

Jane W. Lu
City University of Hong Kong

Mingming Lu
University of Cincinnati

Rory S. MacArthur
Chevron Energy Technology Company

Richard Maggs
Bureau Veritas

Karen Magliano
California Air Resources Board

Mark Mahoney
Washington Savannah River Company

Paul Makar
Environment Canada

Hector Maldonado
California Air Resources Board

Luc Malhautier
Laboratoire de Genie de l'Environnement Industriel

Timothy F. Malloy
University of California Law School

William Malm
Colorado State University

Michael D. Mann
University of North Dakota Department of Chemical Engineering

Imran Maqsood
Saskatchewan Environment

Glen Marotz
University of Kansas

David Marr
U.S. Environmental Protection Agency

Linsey Marr
Virginia Tech University

Trinidad Martinez
National University of Mexico

Daryl M. McCartney
University of Alberta

Robert L. McCormick
National Renewable Energy Laboratory

Chuck McDade
University of California, Davis

Michael McGinley
St. Croix Sensory

James Meagher
National Oceanic and Atmospheric Administration

Francisco J. Colomer Mendoza
Universitat Jaume I

David Mickunas
U.S. Environmental Protection Agency

C. Andrew Miller
U.S. Environmental Protection Agency

Rawlings Miller

Wayne Miller
University of California, Riverside

Tom Misselbrook
Institute of Grassland and Environmental Research

Yuzu Miyazaki
Hokkaido University

Jerzy Mizeraczyk
Institute of Fluid-Flow Machinery Polish Academy of Science

Pierre Mocho
UFR Sciences et Techniques

William Moe
Louisiana State University

John V. Molenar
Air Resource Specialists, Inc.

Lupita D. Montoya
Rensselaer Polytechnic Institute

Philip R. Morey
Environ Corporation

Yu Morino
National Institute for Environmental Studies

Glenn C. Morrison
Missouri University of Science and Technology

Ofelia Morton
Instituto de Geofísica de la Universidad Nacional Autónoma de México

Peter K. Mueller
TropoChem

Saqib Mukhtar
Texas A&M University

Deirdre L. Murphy
U.S. Environmental Protection Agency

S. Murugan
Rajalakshmi Engineering College

David Musick
U.S. Environmental Protection Agency

Ronald Myers
U.S. Environmental Protection Agency

Marti Nadal
Rovira i Virgili University

Vaishali Naik
Princeton University

Miroslav Nastev
Geological Survey of Canada

Dick Nicolai
South Dakota State University

Stephen Niksa
Niksa Energy Associates

Yoshihiko Ninomiya
Chubu University

Leonidas Ntziachristos
University Thessaloniki

Nguyen Thi Kim Oanh
Asian Institute of Technology

Mustafa Odabasi
Dokuz Eylul University

Will M. Ollison
American Petroleum Institute

John M. Ondov
University of Maryland

Duane Ono
Great Basin Unified Air Pollution Control District

John Orlando
University Corporation for Atmospheric Research

Thomas J. Overcamp
Clemson University

Pentti Paatero
University of Helsinki

Ana I. Pantelica
National Institute of Physics and Nuclear Engineering

Lucjan Pawlowski
Lublin University of Technology

Roderick Pearson
Aerospacemissions

John R. Pehrson
Clean Development Mechanism

Natalie J. Pekney
U.S. Department of Energy National Energy Technology Laboratory

Pascual Perez Ballesta
European Commission Joint Research Centre

Kevin D. Perry
University of Utah

Ulrich Pfeffer
Landesumweltamt Nordrhein Westfalen

J.G. Pharoah
Queen's University

Charles E. Pierce
University of South Carolina

Joseph Pinto
U.S. Environmental Protection Agency

Marc Pitchford
National Oceanic and Atmospheric Administration

Rita Pla
Comisión Nacional de Energía Atómica

Hervé Plaisance
Laboratoire Central de Surveillance de la Qualité de l'Air

Richard Poirot
Vermont Air Pollution Control Division

Andrea Polidori
University of Southern California

Alex Polissar
Department of Environmental Protection, New Jersey

Noreen Poor
University of South Florida

Nichola A. Porter
RMIT University

Tjalfe G. Poulsen
Aalborg University

Ana I. Prados
University of Maryland Baltimore County

Andre Prevot
Paul Scherrer Institute

José María Quiroga
University of Cádiz

Sean M. Raffuse
Sonoma Technology, Inc.

Bernhard Raninger
Center of International Migration and Development

Ranji Ranjithan
North Carolina State University

P.S. Rao
Purdue University

Oliver Rattigan
New York State Department of Environmental Conservation

Reginald T. Rbhtan
National University of Singapore

Adam Reff
U.S. Environmental Protection Agency

Silvia L. Reich
Unidad de Actividad Química (Argentina)

P.J. Reucroft
University of Kentucky

Richard O. Richter
Exponent Inc.

Hector G. Riveros
Universidad Autonoma de Mexico

Marco A. Rodriguez
Colorado State University

Massoud Rostam-Abadi
University of Illinois at Urbana–Champaign

Chalermchai Ruangchainikom
King Mongkut's University of Technology Thonburi

Joseph Rudek
Environmental Defense

Armistead G. Russell
Georgia Institute of Technology

Pat Ryan
University of Cincinnati

PauloHilárioNascimento Saldiva
Universidade de Sao Paulo

Jonathan Samet
Johns Hopkins University

Pedro A. Sanhueza
University of Santiago of Chile

Christopher Saricks
Argonne National Laboratory

Sousuke Sasaki
Japan Automobile Research Institute

Mark Sather
U.S. Environmental Protection Agency

Todd P. Sax
California Air Resources Board

Joel Schafer
National Aeronautics and Space Administration

Guido Schattanek
Parsons Brinckerhoff, Inc.

James J. Schauer
University of Wisconsin–Madison

Peter A. Scheff
University of Illinois at Chicago

Kenneth L. Schere
U.S. Environmental Protection Agency

Bret A. Schichtel
National Park Service

Rob Schnatter
Exxon Mobil Biomedical Sciences, Inc.

Russell C. Schnell
National Oceanic and Atmospheric Administration

Maarten Schreuder
Air Science Inc.

Paul R. Schroeder
U.S. Army Engineer Waterways Experiment Station

Lloyd L. Schulman
TRC Solutions

Thomas Schupp
Elastrogran GMBH

James J. Schwab
University at Albany–State University of New York

Yong Chil Seo
Yonsei University

Kenneth G. Sexton
University of North Carolina at Chapel Hill

Masayuki Shima
Hyogo College of Medicine

Richard Shores
U.S. Environmental Protection Agency

Rakesh B. Singh
Golder Associates

Ramesh P. Singh
George Mason University

Åke Sjödin
IVL Swedish Environmental Research Institute

Andreas N. Skouloudis
Institute for Environment & Sustainability

Lucio Soibelman
Carnegie Mellon University

Ji-Hyeon Song
Sejong University, Seoul, Korea

Yajie Song
Yale University

Yu Song
Peking University

George Sorial
University of Cincinnati

Piotr Staniaszek
AMEC Earth & Environmental

Charles Stanier
University of Iowa

Donald H. Stedman
University of Denver

Harvey G. Stenger
University at Buffalo

David M. Stieb
Health Canada

Jan Streese
Hamburg University of Technolohy

Nobuo Sugimoto
National Institute for Environmental Studies

Chang-Jung Sun
Nanya Institute of Technology

Wenbo Sun
National Aeronautics and Space Administration

Hung-Ming (Sue) Sung
Trinity Consultants, Inc.

James W. Sweet
San Joaquin Valley Air Pollution District

Hua-Shan Tai
National Kaohsiung 1st University of Science & Technology

Akinori Takami
National Institute for Environmental Sciences

Shida Tang
New York State Department of Environmental Conservation

S. Tasharrofi
NIOC Resource Institute of Petroleum and Industry

Philip H. Taylor
University of Dayton Research Institute

Hualiang Teng
Civil Engineering Department at University of Nevada–Las Vegas

Gary Thayer
Los Alamos National Laboratory

Eben D. Thoma
U.S. Environmental Protection Agency

James Thomas
Texas A&M University

Susan Thorneloe
U.S. Environmental Protection Agency

Ivar Tombach
Consultant

Ricardo Torres-Jardon
National Autonomous University of Mexico

Joe Touma
U.S. Environmental Protection Agency

Jay Turner
Washington University

Nadine Unger
Columbia University

Mark J. Utell
University of Rochester Medical Center

Kalliat T. Valsaraj
Louisiana State University

Hans A. van Jaarsveld
Netherlands Environmental Assessment Agency

William Vance
California Air Resources Board

Joseph K. Vaughan
Washington State University

Alan Vette
U.S. Environmental Protection Agency

Kit K. Wagner
Atmospheric Information Systems

Lance Wallace
U.S. Environmental Protection Agency (Retired)

Aijun A. Wang
California Environmental Protection Agency

Lin-Chi Wang
Cheng Shiu University

Lingjuan Wang
North Carolina State University

Steven Wang
Kansas Department of Health and Environment

Xinhao Wang
University of Cincinnati

Yinhai Wang
University of Washington

John D. Wanjura
U.S. Department of Agriculture–Agricultural Research Service

Marsha D. Ward
U.S. Environmental Protection Agency

John G. Watson
Desert Research Institute

Rodney J. Weber
Georgia Institute of Technology

Heng Wei
University of Cincinnati

Clifford P. Weisel
Rutgers University

Tom P. Wenzel
Lawrence Berkeley National Laboratory

Jason J. West
University of North Carolina

Amanda J. Wheeler
Health Canada

Leslie White
Washington Savannah River Company

Warren H. White
University of California

Ken Wilkins
National Reaserch Center for the Working Environment

C.M. Williams
North Carolina State University

Eric Williams
Arizona State University

Ron Williams
U.S. Environmental Protection Agency

John D. Wilson
University of Alberta

William E. Wilson
U.S. Environmental Protection Agency

Richard A. Winschel
CONSOL Energy Inc.

P. Wolkoff
National Institute of Occupational Health

David Wong
National Oceanic and Atmospheric Administration Atmospheric Sciences Modeling

Chang-Fu Wu
National Taiwan University

Chun Yi Wu
Minnesota Pollution Control Agency

Ronald E. Wyzga
Electric Power Research Institute

Jin Xu
California Air Resources Board

Naiqiang Yan
Shanghai Jiaotong University

Shang-Shyng Yang
National Taiwan University

Maosheng Yao
Peking University

M. Irfan Yesilnacar
Harran University

Jiann-Hwa You
National Taiwan University

Liya E. Yu
National University of Singapore

Shouhai Yu
University of Alberta

Pao-Chaing Yuan
Jackson State University

Wenqiao Yuan
University of Illinois at Urbana-Champaign

Rahul A. Zaveri
Pacific Northwest National Laboratory

Vladimir V. Zavyalov
Space Dynamics Laboratory

Efthimios N. Zervas
University of Thrace

Kaishan Zhang
California Air Resources Board

Lingying Zhao
Ohio State University

Weixiang Zhao
University of California, Davis

Yi Zheng
University of California, Davis

Jiping Zhu
Health Canada

Jun Zhu
University of Minnesota

Quan Zhuang
Advanced Combustion Technologies, CANMET Energy Technology Center

Greg Zwicke
U.S. Department of Agriculture–National Resources Conservation Service
